

NEW HOMES REGISTRY REPORT

Leading Housing Market Indicator for B.C.

Registered new homes data are a leading indicator of housing and economic¹ activity in British Columbia. The *Monthly New Homes Registry Report* provides information on registered new homes by building type, building size and location, and is intended for use by the residential construction industry, real estate community and researchers.

General Highlights

- In the first seven months of 2023, 26,741 new homes were registered² in B.C., including 4,173 single detached³ and 22,568 multi-unit homes⁴.
- So far in 2023, total home registrations² are down 25.2% from 2022. Registrations for multi-unit homes⁴ decreased 24.1%, while registrations for single detached homes decreased 30.7%³.
- In July, 2,764 new homes were registered² in B.C., a 39.7% decrease compared with July 2022.
- Using a 12-month moving average⁵, there were 3,495 new registered homes² in July, a 4.2% decrease from June for all registered new homes.
- Metro Vancouver accounted for 59.0% of all new homes registered² in July. Vancouver (654), Surrey (374), Coquitlam (250), were the top three cities in registered new homes this month.
- In July, there were more multi-unit homes than single detached homes in Brentwood Bay, Colwood, Prince Rupert, Qualicum Beach, Castlegar, Port Moody, Coquitlam, Abbotsford, Vancouver, Maple Ridge, Powell River, Surrey, North Vancouver*, Victoria, Parksville, Kelowna, Invermere, Osoyoos, Nanaimo, Courtenay, Enderby, and Penticton.
- So far in 2023, 10,113 purpose-built rental units⁶ were registered in B.C. Compared with the same period in 2022, the number of registered rental units increased 0.5%.

Single Detached Highlights

- In the first seven months of 2023, 4,173 new single detached homes were registered³ in B.C. Compared with the same period in 2022, single detached registrations decreased 30.7%.
- In July, 561 single detached homes were registered³. Compared with July 2022, the number of single detached registrations decreased 8.6%.
- Using a 12-month moving average⁵, there were 577 new single detached registered homes³ in July, trending at a 0.8% decrease from June.
- Using a 36-month moving average⁵, there were 795 new single detached registered homes³ in July, which is a 0.6% decrease from June.
- Victoria (37), Surrey (35), and Vancouver (34) had the largest number of single detached homes registered³ in July.

Enrolled Multi-unit Highlights

- In the first seven months of 2023, 12,455 new multi-unit homes were enrolled¹¹ in B.C. Compared with the same period in 2022, multi-unit enrollments decreased 36.7%.
- In July, 1,635 multi-unit homes were enrolled¹⁰. Compared with July 2022, the number of multi-unit enrollments decreased 25.1%.
- Using a 12-month moving average⁵, there were 1,701 new multi-unit enrolled homes¹¹ in July, trending at a 2.6% decrease from June.
- Using a 36-month moving average⁵, there were 2,058 new multi-unit enrolled homes¹¹ in July, which is a 0.9% increase from June.
- There were 168 new multi-unit buildings enrolled¹¹ in July. Most of these buildings were duplexes (34.5%) and buildings of 5 to 50 units (32.7%). The largest building of 334 units was proposed to be built in Vancouver.
- In July, Vancouver (438), Surrey (339), and Abbotsford (209) had the largest number of multi-unit enrolled homes¹¹ in B.C.

Purpose-built Rental Highlights

- In the first seven months of 2023, 10,113 purpose-built rental units⁶ were registered in B.C. Compared with the same period in 2022, the number of registered rental units increased 0.5%.
- So far in 2023, rental units⁶ represented 44.8% of all multi-unit registrations.
- This month, 568 rental units were registered¹². Compared with July 2022, the number of rental units registered decreased 68.2%.
- Using a 12-month moving average⁵, there were 1,218 rental units registered⁶ in July, trending at a 7.7% decrease from June.
- Using a 36-month moving average⁵, there were 1,137 rental units registered⁶ in July, which is a 1.6% decrease from June.
- There were 13 rental buildings registered⁶ in July. Most of these were buildings of 5 to 50 units (30.8%) and quadplexes (30.8%). The largest building of 124 units was proposed to be built in Vancouver.
- In July, Coquitlam (213), Vancouver (182), and North Vancouver* (57) had the largest number of rental units registered⁶ in B.C.

Background and Methodology

BC Housing is responsible for the administration of the *Homeowner Protection Act*, with a mandate to help bring about improvements in the quality of residential construction and increase consumer protection for buyers of new homes in British Columbia (B.C.). Under the Act, all new homes in the province must be registered with BC Housing. The registration of new homes in the public registry must occur prior to the issuance of building permits and housing starts. The new homes registry data measures residential construction activities at the beginning of a project before construction commences. Therefore, information in the Monthly New Homes Registry Report is a leading indicator of housing activity in B.C.

New home registration data is collected from Licensed Residential Builders and owner builders through the New Home Registration forms and Owner Builder Authorization applications. Over time, some minor adjustments July be made to the new home registration data as registrations are withdrawn or cancelled from home warranty insurance.

This report provides information on registered new homes by building type, building size, and building location. Figures for registered new homes include both multi-unit and single detached new homes enrolled with home warranty insurance, Owner Builder Authorizations, and, since the August 2016 report, purpose-built rental buildings that are exempt from home warranty insurance.

CSA-approved manufactured homes (modular homes, mobile homes and factory-built homes), floating homes, non-stratified hotels, motels, dormitories and care facilities are excluded from the definition of new home and are not reflected in the report.

Geographical terms in this publication are based on Statistics Canada's 2006 Census area. In February 2009, the regional district of Comox-Strathcona was replaced by two successor regional districts, Comox Valley and Strathcona.

Research

In collaboration with BC Housing, the Bank of Canada conducted a study to assess whether or not new home registration data can be used as a leading indicator for economic activity in B.C. Study findings reveal that quarterly increases in new registrations for single detached homes have statistically significant predictive content for growth in real Gross Domestic Product (GDP) over the next one to five quarters, providing stronger signals compared to housing starts and building permits over this forecast horizon. To view the report, go to the Staff Discussion Papers section on the Bank of Canada's [website](#).

End Notes

¹ Bank of Canada, 2016. New Housing Registrations as a Leading Indicator of the B.C. Economy. Details are available [here](#).

² Registered new homes includes: single detached and multi-unit homes enrolled in home warranty insurance, single detached homes constructed by an owner builder not covered by home warranty insurance, and purpose-built rental units that are exempt from home warranty insurance. Before August 2016, calculations of registered new homes in this report excluded purpose-built rental units.

³ Registered new single detached homes includes new single detached homes enrolled with home warranty insurance or with Owner Builder Authorizations issued by the Registrar.

⁴ Registered new homes in multi-unit buildings (two or more dwelling units) include new homes enrolled with home warranty insurance and new homes in purpose-built rental buildings with a home warranty insurance exemption. Before August 2016, calculations of registered new homes in multi-unit buildings in this report excluded purpose-built rental units.

⁵ The trend analysis with moving average is based on a twelve-month and 36-month simple moving average of the monthly new home registration data. Data are not seasonally adjusted.

⁶ Purpose-built rental refers to new rental homes in multi-unit buildings that qualify for exemption from home warranty insurance. These exempted homes must be constructed for rental purposes, including social housing, and have a restrictive covenant registered on title restricting the sale of any dwelling unit for a 10-year period. Rental homes with a covenant July however be captured under "enrolled new multi-unit homes" if the unit is voluntarily enrolled with home warranty insurance.

⁷ Selected cities are the 10 cities that had the highest numbers of registered new homes in the reference month.

⁸ The five regional districts with the highest numbers of registered new homes in the reference month.

⁹ Owner-built homes refers to Owner Builder Authorizations issued by the Registrar. New homes built under an Owner Builder Authorization are exempt from licensing and home warranty insurance.

¹⁰ Selected cities are the 10 cities that had the highest numbers of registered single detached homes in Metro Vancouver in 2022.

¹¹ Enrolled new multi-unit homes refers to new homes in multi-unit buildings (two or more dwelling units) enrolled with home warranty insurance.

¹² Building size is measured by number of dwelling units, which is equivalent to new homes.

¹³ In this report, the five year average is the average of the most recently completed five years.
