

BC Housing

February 13, 2008

**RFTQ No. 1070-0708/515 ENTERPRISE DOCUMENT & RECORDS
MANAGEMENT SYSTEM
Addendum No. 3 – This forms part of the above RFTQ**

TO ALL RESPONDENTS:

The following are questions and answers pertaining to the above mentioned RFI.

Q#4 If a software solution provider felt it prudent to partner with an implementation firm to best respond to both the short and long term goals of the EDRMS within BC Housing, does BC Housing have a notable preference regarding whether the software solution provider takes a 'prime' or 'sub' role in this response and resulting possible contract?

A#4 From BC Housing's point of view, there is no preference. If a third party implementation firm takes the lead on responding to our RFTQ, this firm must be certified by the software vendor that they are the only respondent working on the software vendor's behalf (via a letter submitted with the response), as BC Housing will only accept one response per software package.

Sincerely,

Mike Klein
Chief Information Officer
