Asbestos Inventory:

BC Housing maintains an inventory of representative samples, at each site, of all materials tested for the presence of asbestos fibres. This inventory is available for viewing by all contractors and subcontractors. Contractors/subcontractors are responsible for viewing this inventory if they believe work being carried out may disturb any suspected asbestos containing materials. If insufficient testing results are available to assess risk, and/or the Contractor or subcontractor suspects asbestos containing material may be present at the work site, then, BC Housing will be responsible for conducting further testing prior to any work commencing. Contractors are responsible to comply with all worksafeBC procedures with respect to working safely with asbestos.

Unless specifically included in the scope of work for this contract, BC Housing will be responsible for the containment/removal and disposal of asbestos containing materials in the affected area(s).

BC Housing Standard Terms & Conditions at www.bchousing.org shall apply unless otherwise indicated.
