*"Not only did I grow up at BC Housing,  
the organization gave me my wings."*

*Erin S  
Manager  
Housing Services*

I applied to BC Housing on the recommendation of a friend. From very early days, I realized the importance of BC Housing's work. My mantra has become: we are all one accident, illness or injury away from losing our lives as we know them – and those are the people that we help.

Since coming on board in 1990, I have been supported and encouraged to be creative in how I and my team address challenges and enhance our services. BC Housing is focused and driven, and knows how to get things done.

BC Housing

where it matters.
