

professional progressive passionate

*"You have to be happy in what you do.
And I can honestly say that I am."*

*Malachy T
Regional Director, Northern Region*

My passion, my motivation has always been to help create healthy communities. I moved from community-based non-profits to BC Housing – a move that some might consider going to the “other side”. As I’d hoped, we have a great deal of influence from this place. The people at BC Housing have the ability to make a real difference in people’s lives.

Now, having experience with BC Housing, I have become a passionate spokesperson for the dedication, hard-work, and vision of this organization.

BC Housing

where it matters.
