New Supportive Housing for Kamloops

Everyone needs a home.

The 2016 Kamloops Homeless Count found 100 people unsheltered. The City of Kamloops, BC Housing, community agencies and local residents recognize the urgent need for housing for people looking to transition from the streets to stable and independent housing. To this end, the City of Kamloops and BC Housing have signed a Memorandum of Understanding, and will partner with Canadian Mental Health Association (CMHA) and ASK Wellness Society to respond with two new housing opportunities across Kamloops.

Both sites will be provide up to 52 units of permanent modular housing units and support services including 24/7 staffing, a meal program and connection to a range of services.

317 Tranquille Road
Operations and supportive services provided by ASK Wellness

259 Victoria Street West
Operations and supportive services provided by CMHA
Housing Along the Continuum

Approximately 100 units of new supportive housing at Tranquille Road and Victoria Street West

**Highlights**

- Creation of approximately 100 long-term supportive housing units in the community
- Provides transition from shelter / the street into stable and supportive housing
- Serves both the North Shore and South Shore communities
- Alignment with City of Kamloops’ Official Community Plan, the Kamloops Social Plan, and the Sustainable Kamloops Plan
