## **BC Rebate for Accessible Home Adaptations**

**Assessment Form** 

Please see Section 7 of the Homeowner's application for a list of eligible of adaptations. Select only those that apply directly to the permanent disability or loss of ability and that will improve the client's ability to perform the basic activities of daily living.

Rebates are limited to a maximum of one (1) of each adaptation unless otherwise noted. If approved, your client will receive an approval letter outlining the maximum rebate for each approved adaptation. For more information on available rebates, please visit www.bchousing.org/BC-RAHA for the Maximum Rebate Schedule.

**Please note:** BC RAHA does not fund adaptations for therapeutic purposes such as soaker or jetted tubs for pain relief, or adaptations for ease of cleaning (i.e., easier to clean flooring, fixtures etc.)

In case the requested adaptations exceed the maximum rebate allowed, it is helpful for the adaptations to be numbered in order of priority (with 1 as the highest priority). Do not duplicate numbering, even if adaptations are in different rooms. Numbering may be used to determine which adaptations are approved or not approved based on the adaptation maximum rebate amounts and/or the lifetime maximum rebate of \$20,000 per household.

Other adaptations will only be considered under extenuating circumstances where standard program adaptations cannot provide adequate independence and accessibility within the home. If approved, BC Housing may cap the rebate at the amount of other comparable adaptations or may require the applicant to obtain contractor estimates.

If requesting an adaptation that is not listed on the Maximum Rebate Schedule, please provide a detailed description of the required
