

Fire Watch - Required Equipment

Each person doing Fire Watch must be easy to recognize and able to quickly alert people, call emergency services, and talk to other Fire Watch staff.

HIGH VISIBILITY VEST

Makes Fire Watch personnel easily identifiable to building occupants and emergency responders.

MARINE AIR HORN

Used to loudly alert occupants of a fire or emergency when alarms are down.

WHISTLE

Provides a quick, audible signal to draw attention or assist in evacuation.

TWO-WAY RADIO

Enables fast communication with security, building staff, or emergency teams.

KEYS

Grants access to secure areas for inspection, evacuation, or emergency response.
