

Upcoming site preparation work and tree removal

February 18, 2026

39900 Government Road & Centennial Way, Squamish

Dear Neighbour,

We are writing to let you know about upcoming site preparation work at 39900 Government Road related to the proposed housing development currently in planning and permitting with the District of Squamish.

To safely prepare the site, tree removal will occur on or about March 2 and is expected to take approximately two weeks. The timing avoids bird nesting season. The District of Squamish has issued the required Tree Management Permit for this work.

What to expect:

- Temporary fencing will be installed.
- The informal access path through the site will be closed during tree work and reopened afterward.
- There may be brief, intermittent traffic delays as trucks enter and exit the site.
- Tree stumps will remain for now and may be removed at a later date.

Staying Informed

- For the most current application materials, visit the District's Development Review page at squamish.ca/building-and-land-development/home-land-and-property-development/development-review-and-local-projects/.
- Questions? Email communityrelations@bchousing.org or planning@squamish.ca.

Thank you for your patience as we complete this early, time-sensitive site work.

Sincerely,

BC Housing
District of Squamish
Squamish Helping Hands Society
Squamish Community Housing Society
