Supportive Housing Project Deferred

321, 327 Fortune Drive and 285 Leigh Road, Kamloops

Dear Neighbour,

We are writing to share an update about the supportive homes planned for 321 and 327 Fortune Drive and 285 Leigh Road in Kamloops.

Given fiscal constraints, the Province has determined the need to adjust the pace of housing investments. As a result, this project has been deferred.

We remain committed to moving forward with housing at this site. However, progress may be slower because provincial housing investments will be flowing at a slower pace, and we will need to ensure that investments in this project are aligned with funding availability.

Development

BC Housing has already arranged to complete the required archaeological assessment work on this site. This work will still proceed in May 2026.

After the archaeological assessment work is complete, any future development on the site will depend on funding availability.

We will share any updates about this project with neighbours as soon as we are able to.

If you have questions about the site work, please email BC Housing at **communityrelations@bchousing.org**.

Sincerely,

BC Housing
