

# Neighbourhood Update

June 24, 2024

## [769-875 Mission Flats Road, Kamloops](#)

---

Dear Neighbour,

We are writing to share that BC Housing and the City of Kamloops are working together to create 98 homes with support services at **769-875 Mission Flats Road**. This building will replace the current 55 units of temporary modular housing at 805 Mission Flats Road.

ASK Wellness Society currently operates the temporary housing at 805 Mission Flats Road. These residents will not lose their housing. They will be considered for the new supportive homes first when the buildings are ready.

This housing will consist of two permanent modular buildings. ASK Wellness Society will operate at least one of the buildings. We will confirm the operator of the neighbouring building and share more details about the project as they are available. Construction is expected to begin later this year. We currently expect this housing to open in 2025.

These new homes are an important part of our continued effort to address and prevent homelessness in the community. This project was recently included in a larger announcement by the Province about over 400 new homes coming to Kamloops.

### **Supportive housing**

Supportive homes are deeply affordable studio apartments for people who need supports to maintain their housing. Residents are single adults (19+) of all genders, including seniors, people with disabilities or any others who need supports to maintain stable housing. Supportive housing typically includes services such as meals and referrals to health and community supports and culturally informed services.

### **Questions?**

A caring community can contribute greatly to the success of supportive housing residents. We will continue to share updates with neighbours and keep lines of communication open. We will reach out again to introduce another housing operator when selected and share a direct phone number when it is available.
